Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Tuesday 17 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Outbreaks of light rain dying away. Brighter spells later.

Today:
Overcast morning with outbreaks of light rain and drizzle. This afternoon becoming dry with some bright, perhaps sunny, spells developing later. These are most likely to the east of the Pennines. Temperatures will be close to average. Maximum temperature 20 deg C (68 deg F).

Tonight:
Largely clear skies to the east of the Pennines, whilst large amounts of cloud will probably linger across the Pennines, bringing a chance of drizzle and hill fog. Minimum temperature 10 deg C (50 deg F).

Wednesday:
Dry with often large amounts of cloud, but also some sunny spells, the best of these to the east of the Pennines where the highest temperatures will occur. Maximum temperature 23 deg C (73 deg F).

Outlook for Thursday to Saturday:
Thursday generally cloudy with the chance of occasional light rain and drizzle. Friday mainly dry and cloudy, some bright spells. Sunny spells Saturday with light winds, and feeling rather warm.
